ABSTRACT

This report summarizes information on the racial/ethnic distribution of the students and professional staff in all public elementary and secondary schools in New York State during 1980-81. Various statistical tables show the proportions of students and staff classified as belonging to (1) White, (2) Black, (3) Hispanic, and (4) Asian/Pacific Islander, American Indian, or Alaskan Native groups, in the five largest school districts, in the rest of the State, and in the State as a whole. Data are also provided on the school distribution of black and Hispanic minorities. Also included are tables indicating student and staff distributions over the periods 1976-77 through 1980-81. Appendices consist of more detailed tables showing racial/ethnic distribution of students and professional staff by individual school district. (MJL)

INTRODUCTION

The collection of racial/ethnic data on the school population of New York State was initiated in 1961 with a census of public elementary schools. Since 1966 such information has been collected annually from all public elementary and secondary schools and is now a part of the Department's Basic Educational Data System.

Table 1 presents the 1980-81 racial/ethnic distribution of public school students for the State's "Big Five"[a/] school districts (individually and combined), for the rest of the State and for the State as a whole. Examination of table 1 shows, in part, that (1) excluding the "Big Five" cities, 7.6 percent of the students enrolled in New York State's public elementary and secondary schools are classified in the two major minority groupings--black and Hispanic; (2) within New York City, 69.0 percent of the students are of a major minority group, and 26.9 percent are classified as white; (3) in four of the State's five largest cities, over 33 percent of the students are classified as black.

Table 2 details the 1980-81 distribution of black and Hispanic students by location in the State. It can be seen that of all public school black students in the State, 70.4 percent attend schools in New York City, while an additional 10.0 percent attend schools in the other four major cities. Some 87.1 percent of the State's Hispanic students attend schools in New York City.

Table 3 shows a percent distribution of public school students, by racial/ethnic origin, for the years 1976-77 through 1980-81. In the large cities of the State, the major minority group population of the public schools rose from 64.0 percent in 1976-77 to 66.5 percent in 1980-81. The increase was most pronounced in Yonkers where black and Hispanic representation in the public schools rose 8.0 percentage points over the five-year period.

Table 4 shows the number of schools and the number and percent of minority students (black and Hispanic) in schools of differing racial composition; i.e., the percent of minority students in the school. Examination of table 4 shows, in part, that (1) there are 354 schools in New York with no black or Hispanic students; (2) there are 74 schools in which all students are of a major minority group and that the enrollment in these schools accounts for 4.7 percent of the State's total black and Hispanic enrollment; (3) about three-quarters (75.4 percent) of the black and Hispanic students in New York State's public schools attend a school that can be classified as a minority school; i.e., 50 percent or more of the students are black or Hispanic.

[a/] Buffalo, New York City, Rochester, Syracuse, Yonkers

Table 5 shows the number of schools and the number and percent of black students in schools of differing racial composition. Examination of table 5 shows, in part, that (1) there are 599 schools in New York State with no black students; (2) over half (53.7 percent) of the black students in New York State's public schools attend a school that is predominately black; i.e., 50 percent or more of the students are black.

Table 6 presents data similar to that of table 5 for Hispanic students. It may be seen that while there are no "all Hispanic" schools in the State, 44.5 percent of the Hispanic students attend schools with enrollments that are predominately (50 percent or more) of the same ethnic group.

Table's 7 and 8 show the distribution of public school professional staff by racial/ethnic origin, with current year data presented in table 7 and trend data for the years 1976-77 through 1980-81 appearing in table 8. Table 8 shows that the percent of minority group staff rose from 14.9 to 16.5 percent in the large cities of the State between 1976-77 and 1980-81. For the total State, minority groups comprised 7.0 percent of public school staff in 1980-81.

Appendix A distributes public school students by racial/ethnic origin for each school district in the State. Appendix B distributes public school professional staff by racial/ethnic origin for each school district in the State.

APPENDIX B

PERCENT DISTRIBUTION OF PUBLIC SCHOOL PROFESSIONAL STAFF
BY RACIAL/ETHNIC ORIGIN

1980-81

NOTE: "Public School Staff" includes all professional staff assigned full-time to one school, central office professional staff and those assigned to more than one school.

An asterisk (*) in the table indicates less than 0.1 percent.
